

Hello. My name is Dr. Horning. I am teaching 7th grade and honors math this year. I attended University of Phoenix for both my Doctorate in Educational Leadership/Curriculum and Instruction and Masters in Education. I taught at Eduprize - sixth grade and seventh grade math/science and fourth grade for 11 years. I absolutely love teaching and helping students to understand ways for improving their education. I truly believe each parent, student, and teacher to be vital for student success. We all play key roles.

My husband and I have five grown children with eight grandchildren - all boys except the youngest. We enjoy traveling the world to experience new cultures and spending time with our 2 little dogs, Liberty (Libby) and Freedom (Freddy). I am excited for the new year, as returning to Eduprize feels like coming home.
